The Department of Building Services Engineering (BSE) of The Hong Kong Polytechnic University (PolyU) was visited by Salesian English School (SES) (慈幼英文學校) on 8 January 2016. The SES students and teachers enjoyed a meaningful afternoon tour full of sharing.

Dr. Vivien LU, Associate Professor of BSE Department, officially started the Visit by welcoming all SES students and teachers at the introduction session. Dr. LU introduced the World University Rankings of PolyU as well as the roles, objectives, accomplishments, facilities and recent developments of BSE.

The presentation was followed by Professor S.K. TANG’s overview of building services and academic programmes offered by the Department. In particular, BSE undergraduate programmes were introduced to the students. Professor TANG highlighted BSE’s endeavours to provide its students with the knowledge and training needed for the industry and discussed the importance of building services engineering in a wider context. Lastly, he encouraged the SES students to study hard in their HKDSE and secure the opportunity of getting into PolyU BSE programmes.
