Outstanding Student Award 2016, Department of Building Services Engineering
3 January 2017

The Department of Building Services Engineering (BSE) of The Hong Kong Polytechnic University (PolyU) is pleased to announce that BSE student Miss Li Xinchang has been selected to receive the Outstanding Student Award 2016, BSE under the PolyU's Outstanding Students Award Scheme.

The Scheme carries the objectives to motivate students to excel in both academic and non-academic pursuits while they are studying at PolyU, and to help cultivate a campus culture and communicate a public image favourable to the development of all-round graduates.

The Outstanding Student Awards Presentation Ceremony will be held on 21 February 2017 at the Chiang Chen Studio Theatre. Miss Li will be awarded a certificate and a cash prize of \$2,000 from Professor Timothy W. Tong, President of PolyU.

The Outstanding Student Awards are given annually to full-time final-year students in recognition of their outstanding academic achievement, strong leadership ability, active involvement in extra-curricular activities, substantial community service experience and exposure, and good personal qualities.

Miss Li is the awardee of the Departmental Entry Scholarship for Non-Local Students and the Dean's Honours List 2013-15 in recognition of her excellent academic achievement during her studies in PolyU. She leads in various academic projects, competitions and campus-wise student development programmes. She also takes profound interests in theatre and performing arts: has co-directed and performed in multiple productions from PolyU English Drama Club, Students' Union Choir and Illini Student Musicals (during her exchange study in UIUC).

Besides her personal development, she also shows care to the community by actively participating in voluntary services for ethnic minorities, PolyU freshmen, non-local and exchange students. She was featured in PolyU SPECIAL Portfolio of Student Achievements 2015 for her extensive engagement in ethics and moral education activities.

BSE would like to take this opportunity to congratulate Miss Li on her academic success and achievement on winning the award.
