

SYMPOSIUM CHAIRMAN

Professor W.K. Chow

Area of Strength: Fire Safety Engineering
The Hong Kong Polytechnic University
Hong Kong, China

TECHNICAL COMMITTEE CHAIRMAN

Professor Y. Hasemi

Waseda University, Japan

PRIZE COMMITTEE CHAIRMAN

Professor W.C. Fan

University of Science and Technology of
China, China

ADVISORS

Professor T. Hirano

Chiba Institute of Science, Japan

Professor B.Z. Dlugogorski

The University of Newcastle, Australia

SUPPORTING ORGANIZERS

China Public Security
Society of Fire Protection Engineers
Hong Kong Chapter
Asian Fire Fighting
State Key Laboratory of Fire Science,
University of Science and Technology of
China, China

SPONSORS

Research Engineering Development Façade
Consultants Limited
Asia Aluminum Holdings Limited

Registration fee

Full fee: US\$400 (HK\$3,200) per person including
lunch and the conference dinner

Half-day session fee: US\$70 (HK\$560) per person
including lunch.

7th Asia-Oceania Symposium on Fire Science & Technology

20-22 September, 2007
Hong Kong

AN IAFSS ACTIVITY ORGANIZED BY

Area of Strength: Fire Safety Engineering
The Hong Kong Polytechnic University

Date

20-22 September 2007

Time

9:00 am - 6:00 pm

Venue

Hongkong International Trade & Exhibition Centre
1 Trademart Drive, Kowloon Bay, Hong Kong

Introduction

Rapid rise of the economics in the Far East has led to many large-scale new construction projects. As the number of fires, including arson and terrorist attack fires, appears to be increasing in the past ten years, fire safety has to be considered carefully.

Language

The official language of 7AOFST is English.

Call for Papers - Important dates

- Deadline for abstracts 31 Oct 2006
- Notification of abstract acceptance 30 Nov 2006
- Deadline for full paper submission 28 Feb 2007
- Notification of paper acceptance 30 Apr 2007
- Deadline for final paper submission 30 Jun 2007

Abstracts and papers should be submitted to the Symposium Secretary:

Miss Y.Y. Yeung

E-mail: beelize@polyu.edu.hk

Tel: (852) 2766 5862 Fax: (852) 2765 7198

Area of Strength: Fire Safety Engineering
Department of Building Services Engineering
The Hong Kong Polytechnic University,
Hung Hom, Kowloon, Hong Kong

Advising Committee

Mr. B. An, Korea
Dr. M.Y.L. Chew, Singapore
Professor S.W. Chien, Taiwan, ROC
Professor K.C. Chung, Taiwan, ROC
Professor H. Ding, China
Mr. V.P. Dowling, Australia
Professor M.X. Fang, China
Professor Y. Gao, China
Dr. A.K. Gupta, India
Professor G. Hadjisophocleous, Canada
Dr. Y. He, Australia
Professor R. Huo, China
Professor H. Kim, Korea
Dr. J.D. Kim, Korea
Professor E. Kennedy, Australia
Dr. W.H. Kim, Korea
Professor S. Kumar, India
Dr. A.M.Y. Lei, Taiwan, ROC
Professor G.X. Liao, China
Professor V. Novozhilov, UK
Professor A. Sekizawa, Japan
Professor Y.N. Shebeko, Russia
Dr. M. Spearpoint, New Zealand
Professor T. Tanaka, Japan
Ms. C. Wade, New Zealand
Dr. Y.W. Wong, Singapore
Mr. Q.H. Wu, China
Professor W.W. Yuen, USA
Dr. J. Yang, USA
Mr. J.C. Yang, China
Professor K.H. Yang, Taiwan, ROC

Local Organizing Committee

Professor W.K. Chow (Chairman)
Dr. R.K.K. Yuen
Dr. S.M. Lo
Dr. B. Yao
Dr. Y.Z. Li
Dr. C.S. Jiang
Dr. N.K. Fong
Dr. G.C.H. Lui
Mr. K.W. Lau
Mr. P.Y.C. Chan
Miss F.S.C. Tsui

Topics to be Included

□ Fire science

Ignition, flame spread, heat release rate, flashover, extinguishing mechanism.

□ Fire models

Fire zone model, computational fluid dynamics or numerical heat transfer, airflow network models.

□ Materials

Fire behaviour, tests, fundamental properties, combustibility, fire retardants, heat release rate, smoke toxicity.

□ Fire hazard assessment

Fire environment, empirical relations, engineering tools, full-scale burning tests required, special considerations for supertall buildings, shopping mall complexes, public transport interchanges, big terminals.

□ Passive building construction

Compartmentation, fire resisting construction, evacuation design, means of access for firefighting, testing and control of fire safe materials.

□ Active fire protection systems

New fire systems, halon substitutes, water mist fire suppression systems, green firefighting techniques, smoke management systems, intelligent fire detection and unwanted fire alarms.

□ Fire safety management

Fire safety plan, maintenance plan, staff training plan, fire action plan, fire prevention plan, technology/procedure/behaviour (TPB).

□ Safety codes

Fire codes for hardware fire safety provisions, difficulties in implementing engineering performance-based fire codes, responsibilities of different parties, education and training desired.
