EDITORIAL BOARD

Editor-In-Chief
Professor W.K. Chow
Leader, former Area of Strength: Fire Safety Engineering
Department of Building Services Engineering
The Hong Kong Polytechnic University
Hong Kong, China

Associate Editor
Professor W.H. Yik
Department of Building Services Engineering
The Hong Kong Polytechnic University
Hong Kong, China

Members
Dr. K.T. Chan
Department of Building Services Engineering
The Hong Kong Polytechnic University
Hong Kong, China

Professor M.Y.L. Chew
Department of Building, School of Design and Environment
National University of Singapore
4 Architecture Drive, Singapore 117566

Professor Y.K. Chuah
Department of Air-Conditioning and Refrigeration Engineering
National Taipei University of Technology
Taipei 106, Taiwan

Professor X.Y. Lu
Department of Mechanical Engineering
University of Science and Technology of China
Hefei, Anhui, 230026, China

Dr. A. Delsante
Division of Building, Construction and Engineering
Commonwealth Scientific & Industrial Research Organization
Melbourne, Victoria 3190, Australia

Professor S.L. Liu
College of Power and Nuclear Engineering
Harbin Engineering University
Harbin 150001, Heilongjiang, China

Professor V.I. Hanby
Institute of Energy and Sustainable Development
De Montfort University
Leicester, LE1 9BH, U.K.

Professor G. Tu
Department of Building Environment and Equipment
The School of Environmental Science and Technology
Tianjin University
Tianjin 300072, China

Professor P. Jones
Welsh School of Architecture
Cardiff University
Wales, CF10 3NB, U.K.

Professor K.H. Yang
Department of Mechanical and Electro-Mechanical Engineering
National Sun Yat-Sen University
Kaohsiung 804, Taiwan

Professor S. Kato
Institute of Industrial Science
University of Tokyo
Tokyo 153-8505, Japan

Professor W.W. Yuen
Department of Mechanical and Environmental Engineering
University of California at Santa Barbara
Santa Barbara, CA 93106-5070, U.S.A.

AIMS
The design of safe and environmental friendly buildings relies on a good understanding of the related scientific aspects. Architectural Science should be very important especially in urban areas with very dense buildings. This Journal, funded by the earlier Area of Strength: Fire Safety Engineering, The Hong Kong Polytechnic University, aims at presenting the latest achievements in Architectural Science and discussing future goals for it. Applied research on practical architectural projects related to this subject area is the main theme of the journal.
