

EDITORIAL BOARD

Editor-In-Chief

Professor W.K. Chow
Leader, former Area of Strength : Fire Safety Engineering
Department of Building Services Engineering
The Hong Kong Polytechnic University
Hong Kong, China

Members

Professor V. Beck
Victoria University of Technology
Melbourne, Victoria 8001, Australia

Professor A. Buchanan
Department of Civil Engineering
University of Canterbury
Private Bag 4800, Christchurch, New Zealand

Dr. R.W. Bukowski
Rolf Jensen & Associates, Inc.
14502 Greenview Drive, Suite 500
Laurel, Maryland 20708, U.S.A.

Professor S.W. Chien
Department of Fire Services Administration & Science
Central Police University
No. 56, Shuren Road, Guishan Shiang
Taoyuan County 333, Taiwan

Professor K.C. Chung
Department of Mechanical Engineering
National Yunlin University of Science and Technology
Yunlin 640, Taiwan

Professor W. Fan
State Key Laboratory of Fire Science
University of Science and Technology of China
Hefei, Anhui 230026, China

Dr. N.K. Fong
Department of Building Services Engineering
The Hong Kong Polytechnic University
Hong Kong, China

Professor K.H. Hsiung
Taipei Fire Department
No. 1, Sung-Jen Road, Taipei, Taiwan

Dr. B. Karlsson
Iceland Fire Authority
Skúlagata 21, 101 Reykjavík
Iceland

Professor S. Fu
Department of Engineering Mechanics
Tsinghua University
Beijing 100084, China

Professor Y. Gao
Department of Building Engineering
Harbin Engineering University
Harbin 150001, Heilongjiang, China

Honorary Advisor

Professor K.T. Yang
Department of Aerospace and Mechanical Engineering
University of Notre Dame
Indiana 46556, U.S.A.

Professor G. Hadjisophocleous
Department of Civil Environmental Engineering
Carleton University
Ottawa, Ontario K1S 5B6, Canada

Dr. Y. He
School of Construction, Property and Planning
University of Western Sydney
Penrith South DC, NSW 1797, Australia

Dr. H. Ingason
Fire Technology
Swedish National Testing and Research Institute (SP)
S-50115 Boras, Sweden

Professor H. Kim
Industrial Safety Engineering Center
Division of Safety Engineering
Hoseo University
Choongnam, Korea

Professor G.X. Liao
State Key Laboratory of Fire Science
University of Science and Technology of China
Hefei, Anhui 230026, China

Dr. H.P. Morgan
International Fire Consultants Ltd.
Princes Risborough
Buckinghamshire HP27 9AH, U.K.

Professor V. Novozhilov
Fire Safety Engineering Research and Technology Centre
University of Ulster
Newtownabbey, Co. Antrim BT37 0QB, U.K.

Mr. J.-C. De Smedt
Colt International Limited
Belgium

Professor T. Tanaka
Disaster Prevention Research Institute
Kyoto University, Gokasho, Uji
Kyoto 611-0011, Japan

Professor W.W. Yuen
Department of Mechanical and Environmental Engineering
University of California at Santa Barbara
Santa Barbara, California 93105, U.S.A.

Dr. D. Yung
880 Grandview Way
Apt. 807 Toronto
Ontario M2N 7B2, Canada

AIMS

Engineering Performance-Based Fire Codes (EPBFC) for fire safety design have been implemented in advanced countries for years already. Development of performance-based codes is becoming a major trend by bringing together advanced technological approaches from scientists and engineering practices from professionals. This Journal, funded by the earlier Area of Strength : Fire Safety Engineering, The Hong Kong Polytechnic University, aims at presenting the latest achievements in this area and discussing future goals for it. Applied research on practical projects related to EPBFC is the main theme of the journal.
